12200 Comfort Class Series

The 12200 Series utilizes a newly engineered sculpted back design that will provide maximum comfort and support in one. Equipped with our internal ratchet system to enable back height adjustment in 1/2" increments from the seated position, seat depth adjusters, arm options and many pneumatic gas lift heights are all standard options on the 12200 Series. Add a "Stool Kit" option to the 12200 and you have the stylish high seating with a foot ring.

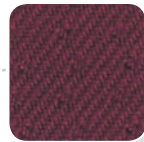

All 12200 Series task stools are shipped with a standard 8" gas lift, 26" diameter base, and a 20" diameter foot ring.

Fabric Options

Staccato

Offering high wear and durability characteristics, this 100% Cordura Nylon is a 1,000,000 double rub fabric that is very comfortable while seated and soft to the touch. Staccato, with its standard Teflon treatment, is suitable in all office and intense use applications
