

## 12300 Lumbar Series

Correct Lumbar Support Is Critical  
To Working In Seated Comfort!

The Lumbar Series was designed with this principal as our guiding focus. Sleek lines and proper proportions make this chair one of extreme comfort.

### You Need Proper Lumbar Support

This ergonomic office chair has been designed specifically for those in need of complete lumbar support. The Lumbar Series is ergonomically correct and kinesiology designed, built to meet the strict guidelines of quality and ergonomic functioning.

### Make An Adjustment

The CASE Furniture and Design Product is an industry leading ergonomic seating line, with the product design focused exclusively on ergonomic principals and complete consideration of the "human factors" of being seated all day. These ergonomic chairs are full featured and extremely comfortable, offering a multitude of features. This series can accommodate most body types and sizes. We can comfortably seat most individuals.

# 12300 Lumbar Series

This series is equipped with our internal ratchet system to enable back height adjustment in 1/2" increments from the seated position.

Like all of the CASE Furniture and Design task chairs, it is available in 7 fabric selections and Seat Slider to maximize the individual's ability to create their own chair.

Available in our standard High Resiliency (HR) foam of the highest quality ensuring many years of unsurpassed comfort!

## Fabric Options

### Staccato

Offering high wear and durability characteristics, this 100% Cordura Nylon is a 1,000,000 double rub fabric that is very comfortable while seated and soft to the touch. Staccato, with its standard Teflon treatment, is suitable in all office and intense use applications
